Dear All,

We want to thank everyone who contributed and, in particular, Brits Abroad, the British International School Shanghai, the British Chamber of Commerce, American Chamber of Commerce, Shanghai Expat Association, the Equatorial Hotel, and Office Lister who contributed time and effort in facilitating the collection in Shanghai. Particular thanks go to AGS Fourwinds for once again organizing and sponsoring the logistics of getting clothes and toys to Qinghai. The table below summarizes clothes and toys distributed (19,564; which included many small toys) to a total of 6,505 Tibetans (2,780 males; 3,129 females) in Qinghai and Gansu provinces.

B. Project Location:

Shiba বিস্থা Ilage, Ninba বিস্থা Township, Choni হ'বৈ৷ County, Gannan শ্রত Tibetan Autonomous Prefecture, Gansu Province, PR China.

C. Project Description:

In total, 1,051 items (toys, shoes, socks, pants, coats, jeans, jackets) were distributed to a total of 292 people (150 females; 142 males).

D. Project Recipient Selection Criteria:

- Elders and children who lacked independent sources of income
- Handicapped people
- Villagers with very low income
- Villagers with little in the way of livestock and farmland
- Families with several children at schools in need of clothes because families tend to invest in education, not clothing. Children who wear ragged clothes are often tormented by their peers in school.
- Recipients that fit and matched the items, e.g., toys were given to children and larger clothes were given to larger people.

Interviews & Photographs

Abu Tso & a rate(b) 1993) is a student in the Tibetan Middle School in Hezuo a rate (b). Her home is Shiba Village. After graduating from the township primary school, she was admitted into the middle school just mentioned, a prefecture level middle school, which is 115 kilometers from her home. Her family spends 2,500 RMB to support her education annually, which is a huge amount, given the family's annual cash income of about 3,000 RMB. She has a younger brother who will attend middle school in 2008. Abu Tso's family spends money on clothing and recreation. Abu Tso confided that she is often teased at school because she wears ragged clothes given to her by relatives.

Kang Drol হাবে (b. 1980) is a mother of two children. As a gender expectation, women in the village are supposed to carry out domestic tasks and take care of farming and herding. Men are expected to go out to the construction field to make money for the family income. Kang Drol relies on her husband financially, which includes medical costs, children's tuition and transportation cost for her to visit her parents. Since she is heavily loaded with tasks such as cooking, fetching water, collecting firewood and farming, she hardly gets any chance to seek for alternative cash income. Her husband spends lots of money on alcohol and cigarettes while spending much less on clothing for the family. Kang Drol often seeks for help from her relatives who have better living conditions to get some second-hand clothes from them.

A drou & (a). 1995) is a primary school student. He often gets his clothes from his two elder brothers. It is usually the case that his parents would buy new clothes for his eldest brother, then it was worn by his second brother, and when it is his turn to wear them, the clothes are already worn out and full of patches. His parents use this method to save some money because they could only make 2,000 RMB cash income a year. This income hardly covers their basic living necessities. A drou was overjoyed by the second-hand clothes he received from this project because he could finally wear some new clothes and go to his classes with his head high. He said he will try his best to keep the clothes patch-less for the longest time possible.

Puha Dongzhi ব্যক্তির বি তি b. 2004) has no toys to play with since he was born. There is no kindergarten in the village, and he is raised by his grandparents. His parents mainly concentrate on family income generation and farming. Annually, they make a total of 2,500 RMB cash income and grow enough crops to feed the whole family. Puha Dongzhi's grandparents are 65 and 68 years old, who are always on medication because of chronic diseases such as bronchitis and tuberculosis. According to Puha Dongzhi's mother, the family had never bought a toy for the little kid although he has demanded many times whenever he sees toys in the shops. When I handed the bear to Puha Dongzhi, he got so scared and ran away. Later I tried to make him to touch the toy, and he attempted for many times and he liked it so much when he found out it is just a toy. Many other people made fun of him by taking the toy away from him; he started crying for fear of losing the toy.

Tashi Tso a specific 1973) gave birth to three children and two of them survived while the other one died within the first month of birth. Neonatal infant mortality is not uncommon in the village because of harsh natural environment and low standard of living. Currently, there are 7 people in Tashi Tso's family, which includes her husband, father-in-law, two children, sister-in-law and son of sister-in-law. Her sister-in-law got divorced and took her son to live with Tashi Tso's family. The whole family has 10 mu of land to feed 7 people, and has no livestock. Like many other men in the village, Tashi Tso's husband works at construction site to earn some cash income. Last year, her husband went to work in a construction site for 8 months, and did not bring any money back because the boss ran away with payment for all the workers. So the only source of income in 2007 was some medicinal herbs that Tashi Tso dug in the mountains and it only produced 500RMB. Tashi Tso's two kids are attending primary school, and costs 850 RMB annually. In 2008, she expects her husband to bring some money back to pay the family debt, which is about 4,000RMB so far.

Unloaded boxes of clothes. Tsepak Namygal transported fifteen boxes of clothes from Xining City, Qinghai Province to Shiba Village, Ninba Township, Choni County, Gannan Tibetan Autonomous Prefecture, Gansu Province which are separated by 485 kilometers. The boxes went by bus. The trip took two days.

Villages sorted the clothes so that could be easily distributed among chosen villagers. After input from village elders and leaders (both men and women), we came up with criteria to ensure the most needy people got clothes. A name-list was made and then invited those on the list to receive their share of clothing. The project was completed within a day.

Dear All,

We want to thank everyone who contributed and, in particular, Brits Abroad, the British International School Shanghai, the British Chamber of Commerce, American Chamber of Commerce, Shanghai Expat Association, the Equatorial Hotel and Office Lister who contributed time and effort in facilitating the collection in Shanghai. Particular thanks go to AGS Fourwinds for once again organizing and sponsoring the logistics of getting clothes and toys to Qinghai.

We are pleased to report the completion of the clothes distribution project in Jinyuan.

We received seventy-eight boxes of clothes July 16, 2008 and delivered the clothes to Jinyuan. Aaron personally spent 800 RMB for transportation fees from Xining to Hualong.

We distributed the clothes to the poorest families in Jinyuan Township with the assistance of village leaders and village elders. There were 4,865 pieces of clothes and 730 toys. The clothes were good quality and the sizes were suitable. There were also some useful things like bedspreads, towels, bags, books, notebooks, belts, ties, pens, wallets, and glasses in the boxes.

We selected four villages to receive clothes and toys. Those who received the clothes are very pleased because even summer is a bit cold. The income of recipient family's is low and they are unable to spend much on clothes.

On behalf of all the beneficiaries, I express deep gratitude for your generous effort.

Sincerely yours,

Aaron (Lerjiater)

Project Background

This area of Qinghai is particularly barren and impoverished and rural inhabitants toil year round in harsh

conditions to make a living. In this area there are twenty-three Tibetan villages. All the residents are Tibetan.

Average cash income of this area is 200-250RMB/person/year. The area is not accessible by hard-surfaced

road, making transportation to and from the villages troublesome. Villagers live in earthen homes reinforced

with wood. The villagers are primarily farmers, who in addition raise livestock, particularly sheep. Because

of the limited income, ninety percent of villagers between twenty and fifty years of age have never been to

school; approximately ninety-five percent of all villagers are illiterate.

ecent years have seen limited rainfall which, among other factors, has resulted in inadequate crops.

Villagers are thus forced to leave the village and try to find cash-paying jobs in order to have enough food to

eat. Some go to Yushu and Golok prefectures to collect caterpillar fungus in spring; others attempt to find

jobs in construction. Illiteracy is an important factor in their limited ability to find outside employment and

also a factor in their being easily swindled. Therefore, cash income of this area is very limited and most

families cannot afford to purchase clothes each year.

This project benefited 413 families (2,800 Tibetans).

Thank you.

.

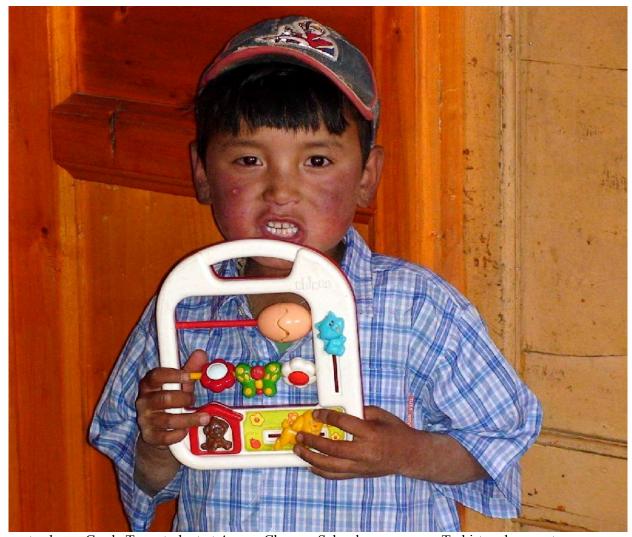

Photographs

Deji (b. 1986) of Angon Chunwa Village, has never been to school. She cannot leave the village to look for cash-paying work. There are six people in her family and it is not possible to buy new clothes for everyone annually. Your donation ensures Deji and her family members will have a warmer winter and will save money they might have otherwise spent on clothing.

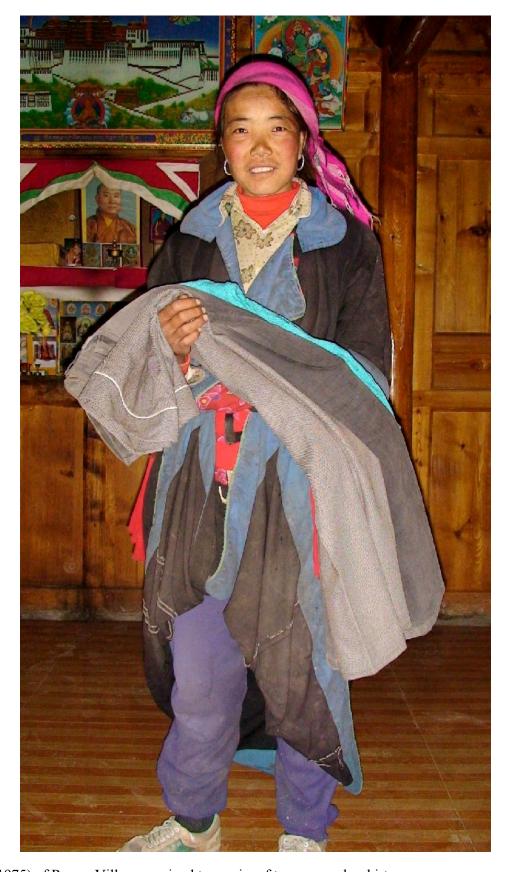

Schoolgirls at Angon Chunwa School wear newly received clothes and play with new toys.

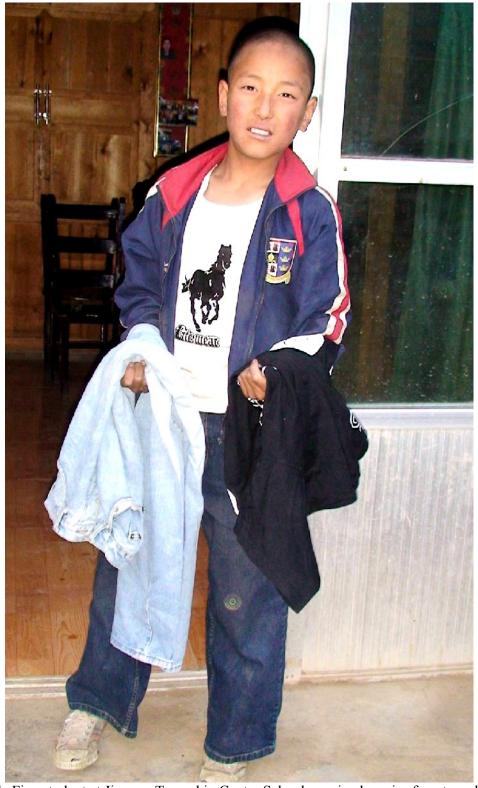

Lamotsedan, a Grade Two student at Angon Chunwa School wears a new T-shirt and a new toy.

Two year old Sunamben of Zangdong Village received new shoes.

Tsering (b. 1975) of Reguo Village received two pairs of trousers and a shirt.

Caidan, a Grade Five student at Jinyuan Township Center School, received a pair of pants and a shirt. He must walk long distances each day to and from school.

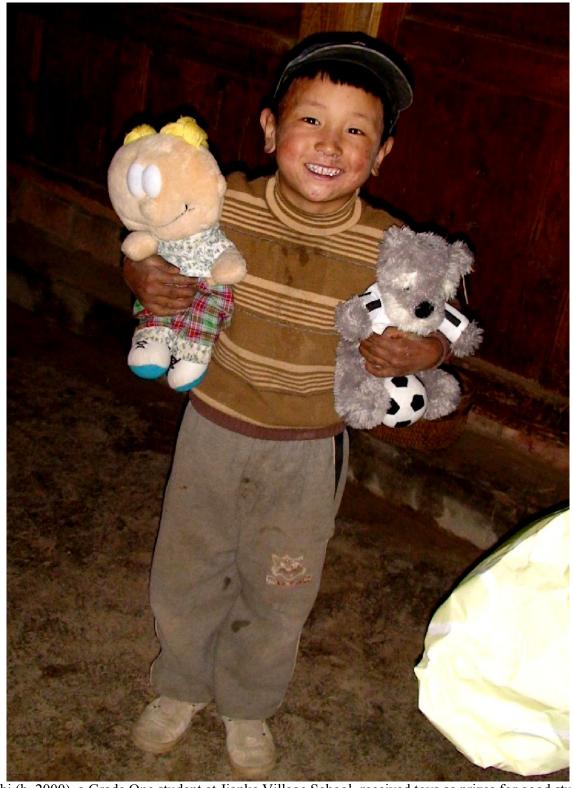

Wadorji (b. 1942) from Zangdong Village received three much-need shirts and a coat.

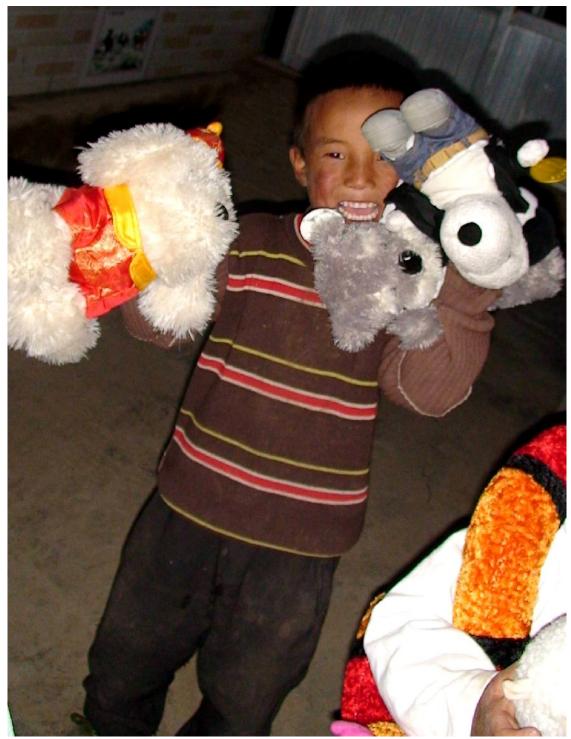

Zhuma (b.1984) and her two babies received a pair of shoes and coat for her son Sonamben (front), and a coat and toys for her daughter (left).

Danzen (b. 2001), a Grade One student at Jianke Village School, is happy with his new toy.

Dongzhi (b. 2000), a Grade One student at Jianke Village School, received toys as prizes for good study results.

Jaide (b. 2001), a Grade One student

Dear All,

I am very pleased to report this successfully completed project. I received seventy-eight 78 boxes of clothes 15 July 2008 and transported them to:

- 1. Gasar, Kagong, and Jiamo villages (done at a central distribution point in Tongren Town)
- 2. Zeku County Town
- 3. Saiwang Primary School (Zeku County)
- 4. Ze shong Primary school (Zeku county)

Recipients were based on the local government's lists of poor people. The two schools were selected because of the poor living conditions in the area of the schools.

Rig 'zin dhual mo spent:

- 1 day to transport the clothes to Tongren County Town (enroute to Zeku County Town) from Xining City
- 1 day to distribute clothes in Tongren County Town
- 1 day to Ze shong Primary School, Ninxiu Township, Zeku County
- 1 day to Saiwang primary School, Ninxiu Township, Zeku County
- 4 days of distributing clothes and toys in Zeku County Town
- 3 days to write the final report

Rig 'zin dhual mo personally visited the project sites to supervise distribution.

Sincerely yours,

Rig 'zin dhual mo (Evelyn)

Children with some of what they received in Zeku County Town.

Children with toys.

Children with toys.

Parents with toys for their children.

People in Zeku County Town gather to receive clothes.

Dividing the clothes.

Dear All,

I am very pleased to report that the clothes and toy project you supported was successfully completed.

Local villagers were delighted to receive these items.

I received seventy-eight boxes and transported them to Detsa Township, where all the clothes were

distributed to 538 people ((268 males and 270 females; 114 households) living in three villages who are the

poorest people with annual cash income of only 350-450 RMB per person. The project helped them save 40-

60 RMB per person this year.

I personally paid 500 RMB to transport the clothes from Xining to the local villages. The local people

received the clothes for free.

I distributed the 3,178 items as follows:

• 182 people (85 males and 97 females) from Sumba Village

• 167 people (90 males and 77 females) from Mine Maga Village

• 189 people (96 females and 93 males) from Jiangza Village

On behalf of all the Tibetan villagers who benefited, I extend sincere appreciation.

Sincerely,

多如喉影

Caihua Dorji (Luke)

Mine Maga Tibetan Village is situated in the southern part of Detsa Township, and ninety kilometers west of Hualong Hui Autonomous County Town, Haidong Region, Qinghai Province. The village is ten kilometers from Detsa Township and ninety-five kilometers from Xining City, the provincial capital. Detsa Township adjoins Garang Township, Guide County, Hainan Tibetan Autonomous Prefecture in the west, Quja Township, Huangzhong County in the north, and Nangra Township, Jatsa County, Huangnan Tibetan Autonomous Prefecture in the south.

All 280 Mine Maga villagers (fifty-eight households) are Tibetan. The village has 180 *mu* of irrigated land. The main crop is wheat, which people use for self-consumption (bread, noodles). Other crops include potatoes and rapeseed.

Jiangza Tibetan Village is ninety kilometers from Hualong County Town, 1.5 kilometers from Detsa Township, and ninety-five kilometers from Xining City. Detsa Township adjoins Garang Township, Guide County, Hainan Tibetan Autonomous Prefecture in the west; Quja Township, Huangzhong County in the north; and Nangra Township, Jatsa County, Huangnan Tibetan Autonomous Prefecture in the south.

All 298 Jiangza villagers (sixty-seven households) are Tibetan. The village has 260 *mu* of irrigated land. The main crop is wheat, which people use for self-consumption (bread, noodles). Other crops include potatoes and rapeseed.

Sumba Tibetan Village is situated in the southeast of Garang Township, Guide (Karaka) County, Hainan Tibetan Autonomous Prefecture, Qinghai Province, China. It is thirty-eight kilometers from the village to Guide County Town, twenty kilometers to Garang Township, and 110 kilometers to Xining City.

The village is located in Qiang Rua Valley, near the Yellow River. The village adjoins Dorsa Tibetan Autonomous Township, Hualong County to the west.

All 330 Sumba villagers (seventy households) are Tibetan. Villagers live in adobe-wood rooms constructed around open courtyards.

The village has 227 *mu* of irrigated land. The main crop is wheat, which people use for self-consumption. Other crops include barley, beans, potatoes and rapeseed. In addition to farming, each household has a few livestock.

Disposable cash income (after tax payments and yearly necessary purchases) per person is approximately 110 RMB per year.
